

Instructor: James Requeima
Office: 7B.15
Office Hours: Office hours are posted beside the door of office 7B.15 and on the website www.obeymath.org
Telephone: (514) 931-8731 Ext. 1774
E-mail: jrequeima@dawsoncollege.qc.ca
Website: <http://www.obeymath.org>
The solutions to the quizzes and tests and any other class materials are posted on the website.

Teacher

Accessibility: For out of class communication please see me during my office hours.

Term Work: Worth 60% of final grade.

3 Class Tests worth a total of 45% on:
Test 1 **Friday September 28th**
Test 2 **Friday November 2nd**
Test 3 **Friday November 30th**
3 Quizzes worth a total of 10% on:
Quiz 1 **Friday September 14th**
Quiz 2 **Friday October 19th**
Quiz 3 **Friday November 16th**

12 Online Quizzes worth a total of 5%.

The content of the in class quizzes is mostly taken from the assigned excercises of previous lectures.

Important:

- There will be no make-up tests or quizzes. If a valid medical note is presented the weight of the quiz or test will be transferred to the other tests, quizzes and examinations.
- Students who will be absent for any predictable reason on a quiz/test day must inform their teacher in writing within the first two weeks of the semester of their intent to be absent so that alternative arrangements can be made at the earliest opportunity. The written notice must be given even when the exact date is not known until later.
- Please note that I do **not** use Omnivox MIO so please do not contact me using MIO.
- This is an abridged course outline. The official course outline can be found at <http://www.obeymath.org>

Mathematics Departments
Calculus II – Social Science
201-203-DW
Fall 2012

COURSE OBJECTIVES

To find integrals involving algebraic, exponential, logarithmic and trigonometric functions (using standard integration techniques). To apply integral calculus in solving problems in business and economics. To find Taylor polynomial expansions for familiar functions. To classify infinite series as divergent or convergent.

COURSE COMPETENCIES

This course will allow the student to fully achieve the competency:

O22Y: To apply methods of integral calculus to the study of functional models in the field of Social Science.

Elements of the Competency:

1. To situate the historical context of the development of integral calculus.
2. To find the indefinite integral of a function using integration techniques.
3. To calculate the definite integral of a function on an interval and provide its interpretation.
4. To calculate the limits of a function with indeterminate forms using L'Hôpital's rule.
5. To calculate the improper integral of a function on an interval and provide its interpretation.
6. To analyze a phenomenon using differential equations with separable variables.
7. To analyze a phenomenon by checking for convergence of a series.

This course also contributes to the partial achievement of the competency:

O22S: To apply concepts related to Social Science disciplines to the understanding of the human phenomena in concrete situations.

Elements of the Competency:

1. To identify concrete situations that lend themselves to study.
2. To use concepts applicable to these situations.
3. To use a strategy appropriate to the study of these situations.

PRE-REQUISITE

Good standing in Calculus I (201-103-DW) or equivalent

PONDERATION

3-2-3

EVALUATION SCHEME AND SCHEDULE

The Institutional Student Evaluation Policy (ISEP) is designed to promote equitable and effective evaluation of student learning and is therefore a crucial policy to read and understand. The policy describes the rights and obligations of students, faculty, departments, programs, and the College administration with regard to evaluation in all your courses, including grade reviews and resolution of academic grievance. ISEP is available on the Dawson website.

Term Work

The term work is based on a minimum of 4 ½ hours of tests/quizzes. A minimum of 3 class tests will be given.

Final Examination

The Final Examination will be a supervised, comprehensive examination held during the formal examination period.

Grading Policy

A student's grade shall consist of:

- | | |
|---|-----|
| 1. Term Mark (tests, computer quizzes, assignments) | 60% |
| 2. Final Examination | 40% |

In order to pass the course, the students must obtain at least **60%**.

REQUIRED TEXT AND MATERIALS

Text: The required text is: **Applied Calculus for the Managerial, Life and Social Sciences (8th Edition)** by S. T. Tan. (Thomson Brooks/Cole Publishers)

References

- (1) Calculus with Applications (9th edition) by Lial, Greenwell and Ritchey (**Addison Wesley Publishers**)
- (2) Calculus: An Applied Approach (9th Edition) by Ron Larson (**Brooks/Cole Publishers**)

Calculators

A scientific calculator, which has no text storage or graphing capabilities, is allowed for class tests and the final exam.

TEACHING METHODS

Lectures / problem solving sessions / computer labs

ATTENDANCE AND COURSE PARTICIPATION REQUIREMENTS

Students should refer to the Institutional Student Evaluation Policy (ISEP section III-C) regarding attendance.

Attendance is recommended for the successful completion of the course.

LITERACY STANDARDS

Problem solving is an essential component of this course. Students will be expected to analyze problems stated in words, to present their solutions logically and coherently, and to display their answers in a form corresponding to the statement of the problem, including appropriate units of measurement. Marks will be deducted for work which is inadequate in these respects, even though the answers may be numerically correct.

STUDENT OBLIGATIONS

- (a) Students have an obligation to arrive on time and remain in the classroom for the duration of scheduled classes and activities.
- (b) Students have an obligation to write tests and final examinations at the times scheduled by the teacher or the College. Students have an obligation to inform themselves of, and respect, College examination procedures.
- (c) Students have an obligation to show respectful behavior and appropriate classroom deportment. Should a student be disruptive and/or disrespectful, the teacher has the right to exclude the disruptive student from learning activities (classes) and may refer the case to the Director of Student Services under the Student Code of Conduct.
- (d) Electronic/communication devices (including cell phones, mp3 players, etc.) have the effect of disturbing the teacher and other students. All these devices must be turned off and put away. Students who do not observe these rules will be asked to leave the classroom.

Everyone has the right to a safe and non-violent environment. Students are obliged to conduct themselves as stated in the Student Code of Conduct and in the ISEP section on the roles and responsibilities of students. (ISEP section II-D)

ACADEMIC INTEGRITY

Cheating in Examinations, Tests, and Quizzes

Cheating includes any dishonest or deceptive practice relative to formal final examinations, in-class tests, or quizzes. Such cheating is discoverable during or after the exercise in the evaluation process by the instructor. Such cheating includes, but is not limited to:

- a. copying or attempting to copy another's work.
- b. obtaining or attempting to obtain unauthorized assistance of any kind.
- c. providing or attempting to provide unauthorized assistance of any kind.
- d. using or possessing any unauthorized material or instruments which can be used as information storage and retrieval devices.
- e. taking an examination, test, or quiz for someone else.
- f. having someone take an examination, test, or quiz in one's place.

Unauthorized Communication

Unauthorized communication of any kind during an examination, test, or quiz is forbidden and subject to the same penalties as cheating.

Plagiarism on Assignments and the Comprehensive Examination

Plagiarism is the presentation or submission by a student of another person's assignments or Comprehensive Assessment as his or her own. Students who permit their work to be copied are considered to be as guilty as the plagiarizer.

Penalties

Cheating and plagiarism are considered extremely serious academic offences. Action in response to an incident of cheating and plagiarism is within the authority of the teacher.

Penalties may range from zero on a test, to failure in the course, to suspension or expulsion from the college.

According to ISEP, the teacher is required to report to the Sector Dean all cases of cheating and plagiarism affecting a student's grade. (see ISEP section IV-C.)

INTENSIVE COURSE CONFLICTS & POLICY ON RELIGIOUS OBSERVANCE

If a student is attending an intensive course, the student must inform the teacher, within the first two weeks of class, of the specific dates of any anticipated absences.

Students who wish to observe religious holidays must also inform each of their teachers in writing within the first two weeks of each semester of their intent to observe the holiday so that alternative arrangements convenient to both the student and the teacher can be made at the earliest opportunity. The written notice must be given even when the exact date of the holiday is not known until later. Students who make such arrangements will not be required to attend classes or take examinations on the designated days, nor be penalized for their absence.

It must be emphasized, however, that this College policy should not be interpreted to mean that a student can receive credit for work not performed. It is the student's responsibility to fulfill the requirements of the alternative arrangement.

Students who intend to observe religious holidays or who take intensive courses must inform their teachers in writing as prescribed in the ISEP Policy on Religious Observance. (ISEP Section III-D).

A form for this purpose is available at the end of this document.

MATH TUTORIAL ROOM

Volunteer math teachers are available for help in room 7B.1 from 10:00 to 16:00 (Monday through Friday) and from 17:00-18:00 (Monday through Thursday).

COURSE CONTENT & TENTATIVE SCHEDULE

(Number of classes listed is approximate)

<u>Topics</u>	<u>Specific Competencies</u>	<u>Learning Activities</u>		
		<u>Section</u>	<u>Pages</u>	<u>Exercises</u>
Integration				
Indefinite Integrals and Simple differential equations.		6.1	406-8	9-62, 67-70
Integration by substitution		6.2	418-9	1-62
		12.4	789-90	1-4, 7, 15-16, 21-24, 29-30
The Riemann Sum and the Definite Integral				[SUPPLEMENTARY NOTES – HANDOUT]
The Fundamental Theorem of Calculus		6.4	438-9	17-43
		12.4	789	11-12

Definite integrals by substitution	6.5	448	1-28 (also p.488; 9-12)
Average value of a function	6.5	448	35-44, 55-56
Area between curves (polynomials)	6.6	459-61	1-2, 8-12, 17-21, 27-31, 35-39
Applications (business & economics) (Consumers' surplus and producers' surplus)	6.7	474	1-7
Integration by Parts	7.1	488-9	1-8, 13-22, 27-31
Integration by Partial Fractions [SUPPLEMENTARY NOTES – HANDOUT] (Proper and improper rational expressions)			
Integration using tables	7.2	496	1-18, 21-25
Numerical Integration (The Trapezoidal Rule and Simpson's Rule)	7.3	508	1-22
Introduction to L'Hôpital's Rule [SUPPLEMENTARY NOTES – HANDOUT] (Indeterminate forms of type $0/0$ and ∞/∞ only)			
Improper Integrals	7.4	518	1-10, 15-28, 41-42
Differential Equations			
Verify proposed solutions	9.1	617-8	1-10, 13-16, 18, 29-32
Separation of variables (First-order separable differential equations)	9.2	623	1-11, 13-22
Taylor Polynomials			
The n th Taylor Polynomial	11.1	698	1-26
Infinite Sequences and Series			
Infinite Sequences	11.2	707-8	1-9, 30-43
Infinite Series (Telescoping and geometric series)	11.3	718	1-24
Series with positive terms (Test for divergence, p -series, and integral and comparison tests)	11.4	729	1-34

RELIGIOUS OBSERVANCE/ INTENSIVE COURSES FORM

Students who intend to observe religious holidays or who take intensive courses must inform their teachers in writing as prescribed in the ISEP Policy on Religious Observance. (ISEP Section III-D)

The following form must be submitted within the first two weeks of classes.

Name: _____

Student Number: _____

Course: _____

Teacher: _____

Date:

Description:

_____	_____
_____	_____
_____	_____
_____	_____
