evaluation:

30% = 3 class tests worth 10% of the final mark each

20% = 4 take-home assignments worth 5% of the final mark each

50% = Final Exam (during official exam period)

Penalty for late work:

10% will be deducted for each day that an assignment is handed in late. Note that an assignment that is not handed in at the beginning of class on the due date will be deemed one day late.

Missed term work:

Students **do not have the option of rewriting a missed evaluation** on a different date than that indicated below or announced in class. Upon presentation of a valid medical note the weight of the missed test/quiz/assignment will be transferred to the weight of the final exam. The valid medical note **MUST** be presented within a week of the student's return to classes or the expiration of the medical note (whichever comes first) otherwise the student will receive a mark of 0 on the missed evaluation.
